

Parental Permission

(To be completed by the parent or guardian)

I have read and reviewed the general requirements for high school athletic eligibility and I have discussed these requirements with my student-athlete. I understand that additional questions or specific circumstances should be directed to my student's principal, athletic director, or coach.

I certify that the home address as parents shown below is my sole bona fide residence and I will notify the school principal immediately of any change in residence, since such a move may alter the eligibility status of my student-athlete. I further acknowledge I must not falsify any official eligibility information such as residency/address. Penalty for such acts will result in loss of eligibility for 365 days. All other information contained on this form is accurate and current.

I also acknowledge that there is a certain risk of injury involved with athletic participation; even with the best coaching, use of the most advanced protective equipment, and strict observance of the rules, injuries are still a possibility and on rare occasions these can be so severe as to result in total disability, paralysis, or even death. It is impossible to eliminate this risk

In accordance with the rules of the NCHSAA, I hereby give my consent for the participation of my student-athlete named below for the following activities **circled below**:

Baseball	Golf	Swimming
Basketball	Indoor Track	Tennis
Cross Country	Outdoor Track	Volleyball
Football	Soccer	Wrestling
Softball	Cheerleading	

Others (School may list): _____

Date: _____ Parent/Guardian's Signature: _____

Name of Student-Athlete: (please print) _____

Name of Parent/Guardian: (please print) _____

Address of Parent/Guardian: _____

NOTE: This statement should be on file in the principal's office and is valid for one school year only.

CONCUSSION

INFORMATION FOR *STUDENT-ATHLETES & PARENTS/LEGAL CUSTODIANS*

What is a concussion? A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

How do I know if I have a concussion? There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you more easily	Sleeping more than usual
Taking longer to figure things out	Fuzzy or blurry vision	Sadness	Sleeping less than usual
Difficulty concentrating	Feeling sick to your stomach/queasy	Being more moody	Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up	Feeling nervous or worried	Feeling tired
	Dizziness	Crying more	
	Balance problems		
	Sensitivity to noise or light		

Table is adapted from the Centers for Disease Control and Prevention (<http://www.cdc.gov/concussion/>)

What should I do if I think I have a concussion? If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

When should I be particularly concerned? If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

What are some of the problems that may affect me after a concussion? You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur. Once you have a concussion, you are more likely to have another concussion.

How do I know when it's ok to return to physical activity and my sport after a concussion? After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.

This information is provided to you by the UNC Matthew Gfeller Sport-Related TBI Research Center, North Carolina Medical Society, North Carolina Athletic Trainers' Association, Brain Injury Association of North Carolina, North Carolina Neuropsychological Society, and North Carolina High School Athletic Association.

Student-Athlete & Parent/Legal Custodian Concussion Statement

**If there is anything on this sheet that you do not understand, please ask an adult to explain or read it to you.*

Student-Athlete Name: _____

This form must be completed for each student-athlete, even if there are multiple student-athletes in each household.

Parent/Legal Custodian Name(s): _____

- We have read the *Student-Athlete & Parent/Legal Custodian Concussion Information Sheet*.
If true, please check box.

After reading the information sheet, I am aware of the following information:

Student-Athlete Initials		Parent/Legal Custodian Initials
	A concussion is a brain injury, which should be reported to my parents, my coach(es), or a medical professional if one is available.	
	A concussion can affect the ability to perform everyday activities such as the ability to think, balance, and classroom performance.	
	A concussion cannot be "seen." Some symptoms might be present right away. Other symptoms can show up hours or days after an injury.	
	I will tell my parents, my coach, and/or a medical professional about my injuries and illnesses.	N/A
	If I think a teammate has a concussion, I should tell my coach(es), parents, or medical professional about the concussion.	N/A
	I will not return to play in a game or practice if a hit to my head or body causes any concussion-related symptoms.	N/A
	I will/my child will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away right away. I realize that resolution from this injury is a process and may require more than one medical evaluation.	
	I realize that ER/Urgent Care physicians will not provide clearance if seen right away after the injury.	
	After a concussion, the brain needs time to heal. I understand that I am/my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms on the Concussion Information Sheet.

NORTH CAROLINA HIGH SCHOOL ATHLETIC ASSOCIATION SPORT PREPARTICIPATION EXAMINATION FORM

Patient's Name: _____ Age: _____ Sex: _____

This is a screening examination for participation in sports. This does not substitute for a comprehensive examination with your child's regular physician where important preventive health information can be covered.

Athlete's Directions: Please review all questions with your parent or legal custodian and answer them to the best of your knowledge.

Parent's Directions: Please assure that all questions are answered to the best of your knowledge. If you do not understand or don't know the answer to a question please ask your doctor. Not disclosing accurate information may put your child at risk during sports activity.

Physician's Directions: We recommend carefully reviewing these questions and clarifying any positive or Don't Know answers.

Explain "Yes" answers below	Yes	No	Don't know
1. Does the athlete have any chronic medical illnesses [diabetes, asthma (exercise asthma), kidney problems, etc.]? List: _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Is the athlete presently taking any medications or pills?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Does the athlete have any allergies (medicine, bees or other stinging insects, latex)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Does the athlete have the sickle cell trait?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Has the athlete ever had a head injury, been knocked out, or had a concussion?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Has the athlete ever had a heat injury (heat stroke) or severe muscle cramps with activities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Has the athlete ever passed out or nearly passed out DURING exercise, emotion or startle?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Has the athlete ever fainted or passed out AFTER exercise?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Has the athlete had extreme fatigue (been really tired) with exercise (different from other children)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Has the athlete ever had trouble breathing during exercise, or a cough with exercise?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Has the athlete ever been diagnosed with exercise-induced asthma ?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Has a doctor ever told the athlete that they have high blood pressure?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
13. Has a doctor ever told the athlete that they have a heart infection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
14. Has a doctor ever ordered an EKG or other test for the athlete's heart, or has the athlete ever been told they have a murmur?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
15. Has the athlete ever had discomfort, pain, or pressure in his chest during or after exercise or complained of their heart "racing" or "skipping beats"?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
16. Has the athlete ever had a seizure or been diagnosed with an unexplained seizure problem?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
17. Has the athlete ever had a stinger, burner or pinched nerve?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
18. Has the athlete ever had any problems with their eyes or vision?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
19. Has the athlete ever sprained/strained, dislocated, fractured, broken or had repeated swelling or other injury of any bones or joints? <input type="checkbox"/> Head <input type="checkbox"/> Shoulder <input type="checkbox"/> Thigh <input type="checkbox"/> Neck <input type="checkbox"/> Elbow <input type="checkbox"/> Knee <input type="checkbox"/> Chest <input type="checkbox"/> Hip <input type="checkbox"/> Forearm <input type="checkbox"/> Shin/calf <input type="checkbox"/> Back <input type="checkbox"/> Wrist <input type="checkbox"/> Ankle <input type="checkbox"/> Hand <input type="checkbox"/> Foot	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
20. Has the athlete ever had an eating disorder, or do you have any concerns about your eating habits or weight?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
21. Has the athlete ever been hospitalized or had surgery?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
22. Has the athlete had a medical problem or injury since their last evaluation?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
FAMILY HISTORY	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
23. Has any family member had a sudden, unexpected death before age 50 (including from sudden infant death syndrome [SIDS], car accident, drowning)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
24. Has any family member had unexplained heart attacks, fainting or seizures?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
25. Does the athlete have a father, mother or brother with sickle cell disease?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Elaborate on any positive (yes) answers: _____

By signing below I agree that I have reviewed and answered each question above. Every question is answered completely and is correct to the best of my knowledge. Furthermore, as parent or legal custodian, I give consent for this examination and give permission for my child to participate in sports.

Signature of parent/legal custodian: _____ Date: _____

Signature of Athlete: _____ Date: _____ Phone #: _____

Physical Examination (Must be Completed by a Licensed Physician, Nurse Practitioner or Physician Assistant)

Athlete's Name _____ Age _____ Date of Birth _____

Height _____ Weight _____ BP _____ (_____ % ile) / _____ (_____ % ile) Pulse _____

Vision R 20/ _____ L 20/ _____ Corrected: Y N

These are required elements for all examinations

	NORMAL	ABNORMAL	ABNORMAL FINDINGS
PULSES			
HEART			
LUNGS			
SKIN			
NECK/BACK
