

WHAT TO DO IF MY CHILD IS QUARANTINED

1

When the school is notified that your child is in quarantine, the homeroom teacher will contact you. The teacher will use the Remind App or a telephone call to make this initial contact.

2

When making this contact, the teacher will discuss whether or not your child has the ability to do classwork online or will need paper/pencil packets. The teacher will also develop a schedule and plan for assignments to be submitted.

3

The teacher will send assignments that are essential to help quarantined children continue instruction.

4

The teacher will contact you periodically during your quarantine.

If you have questions about an assignment, please let the teacher know so he or she can contact you.
