

EB_ThurUpdate_031920_630p

Welcome to Thursday's update. Things have stayed mostly status quo for today which is encouraging. It is my understanding that we are to hear more on school closings in the near future.

All high school students who have computer access—Mrs. Hipp and the teachers want you to check your email every day!!

Day 3 for Child Nutrition—our ladies continue to work hard to provide meals. They served 718 breakfast and 718 lunch meals today. A big thank you to everyone who is helping to deliver meals to those who are unable to come to the school. Our bus delivery will be operational next week.

Parents—hang in there. Teachers are continuing to make contacts with students and you while we are working on this challenge together. Remember—you can contact your school between the hours of 9:30-1:30.

Students—here are some fun trivia facts about the weather. A bolt of lightening is five times hotter than the sun. The wind is silent until it blows against something and there are 2,000 thunderstorms on Earth every minute. I'll admit I didn't know any of these facts. See—even Superintendents can learn something every day. Hope you are doing okay. Have a good night!!
