

## Personal Protective Equipment (PPE) Assessment

Name: \_\_\_\_\_ Date: \_\_\_\_\_

- 1) The \_\_\_\_\_ will be responsible for assessing the hazards and exposures that may require the use of PPE, determining the type of equipment to be provided, and purchasing the equipment.
- 2) \_\_\_\_\_ will be responsible for training employees in the use and proper care of PPE, ensuring that all employees are assigned appropriate PPE, and ensuring that PPE is worn by employees when and where it is required.
- 3) \_\_\_\_\_ are responsible for following all provisions of this program and related procedures. They are expected to wear PPE when and where it is required.
- 4) What does the acronym PPE stand for?  
(short answer)
- 5) What are the six types of PPE?
  - a) \_\_\_\_\_
  - b) \_\_\_\_\_
  - c) \_\_\_\_\_
  - d) \_\_\_\_\_
  - e) \_\_\_\_\_
  - f) \_\_\_\_\_
- 6) When should you wear a hearing protection device?  
(short answer)
- 7) Name three types of popular types of hearing protection devices.
  - a) \_\_\_\_\_
  - b) \_\_\_\_\_
  - c) \_\_\_\_\_
- 8) Fogs are substances that are created when a solid or liquid material evaporates.

True or False

9) The \_\_\_\_\_ is responsible for the Respiratory Protection Program at the Company and conducts respirator training and fit tests and is responsible for determining the proper type of respiratory protection required for the particular hazard.

- a) Safety and Health Manager
- b) Employee
- c) Supervisor
- d) Manager

10) What are the two major categories of respirators?

- a) \_\_\_\_\_
- b) \_\_\_\_\_

11) Bump caps/skull guards will be issued to and worn for protection against scalp lacerations from contact with sharp objects. They can be worn as substitutes for safety caps/hats because they can afford protection from high impact forces or penetration by falling objects.

True or False

12) What are the three classes of hard hats?

- a) \_\_\_\_\_
- b) \_\_\_\_\_
- c) \_\_\_\_\_

13) You may substitute a bump cap for a hard hat.

True or False

14) Most accidents involving hands and arms can be classified under four main hazard categories. Name them.

- a) \_\_\_\_\_
- b) \_\_\_\_\_
- c) \_\_\_\_\_
- d) \_\_\_\_\_

15) Name four different types of footwear that are designed to protect your feet.

- a) \_\_\_\_\_
- b) \_\_\_\_\_
- c) \_\_\_\_\_
- d) \_\_\_\_\_

## **Key** Personal Protective Equipment (PPE)– Assessment

- 1) The \_\_\_\_\_ will be responsible for assessing the hazards and exposures that may require the use of PPE, determining the type of equipment to be provided, and purchasing the equipment.

### **Safety and Health Manager**

- 2) \_\_\_\_\_ will be responsible for training employees in the use and proper care of PPE, ensuring that all employees are assigned appropriate PPE, and ensuring that PPE is worn by employees when and where it is required.

### **Managers/supervisors**

- 3) \_\_\_\_\_ are responsible for following all provisions of this program and related procedures. They are expected to wear PPE when and where it is required.

### **Employees**

- 4) What does the acronym PPE stand for?  
(short answer)

### **Personal Protective Equipment**

- 5) What are the six types of PPE?
  - a) **Eye and Face Protection**
  - b) **Hearing Protection**
  - c) **Respiratory Protection**
  - d) **Head Protection**
  - e) **Hand Protection**
  - f) **Safety Shoes and Foot Protection**
- 6) When should you wear a hearing protection device?  
(short answer)

**You should wear a hearing protection device whenever you are exposed to noise that is:**

- **Greater than 80 dB sound levels for an 8-hour period, or**
- **120 dB peak sound pressure level or greater, or**
- **when directed by your supervisor**

7) Name three types of popular types of hearing protection devices.

- a) **Foam Earplugs**
- b) **PVC Earplugs**
- c) **Earmuffs**

8) Fogs are substances that are created when a solid or liquid material evaporates.

True or **False**

9) The \_\_\_\_\_ is responsible for the Respiratory Protection Program at the Company and conducts respirator training and fit tests and is responsible for determining the proper type of respiratory protection required for the particular hazard.

- a) **Safety and Health Manager**
- b) Employee
- c) Supervisor
- d) Manager

10) What are the two major categories of respirators?

a) **Air Purifying Respirators-These types of respirators include:**

- **Air Purifying Disposable Particulate Masks;**
- **Air Purifying Half Mask Respirators;**
- **Air Purifying Full Face Mask Respirators;**
- **Gas Masks; and**
- **Powered Air Purifying Respirators.**

b) **Supplied Air Respirators-These types of respirators include:**

- **Airline Respirators;**
- **Emergency Escape Breathing Apparatus; and**
- **Self-Contained Breathing Apparatus (SCBA).**

11) Bump caps/skull guards will be issued to and worn for protection against scalp lacerations from contact with sharp objects. They can be worn as substitutes for safety caps/hats because they can afford protection from high impact forces or penetration by falling objects.

True or **False**

12) What are the three classes of hard hats?

a) **Class A Hard Hats are designed to:**

- **Protect you from falling objects; and**
- **Protect you from electrical shocks up to 2,200 volts.**

b) **Class B Hard Hats are designed to:**

- **Protect you from falling objects; and**
- **Protect you from electrical shocks up to 20,000 volts**

c) **Class C Hard Hats Protect you from falling objects but**

- **DO NOT protect you from electrical shocks**

13) You may substitute a bump cap for a hard hat.

True or **False**

14) Most accidents involving hands and arms can be classified under four main hazard categories. Name them.

a) **chemicals**

b) **abrasions**

c) **cutting**

d) **heat**

15) Name four different types of footwear that are designed to protect your feet.

a) **Steel toe footwear**

b) **Metatarsal footwear**

c) **Reinforced sole footwear**

d) **Latex/Rubber footwear**
