- ❖ Intramurals during SMART Lunch? Maybe look at winter and spring
- ❖ Anyone having problems getting kids to come and check in during the nine weeks? What info can we get from the Google form data?
- ❖ Stefan talked a little about the school wide challenge for the kids (from the SIP goals)
- ❖ Any thoughts on adding a minute between 1st and 2nd / 3rd and 4th. There are more kids getting to class late.
 - Looks like the problem happens more between 3rd and 4th
 - If a couple minutes added there – then there needs to be adults assigned to monitor the bathrooms during this time
 - Then if we assign – then there is one more duty assigned to them
