1. Trey talked about concerns in media center during SMART Lunch
 - a. Kids playing games on the computers – other students can't do academics
 - b. Are we allowing them to play violent games?
2. During the lockdown drill – do students know what to do? Have we taught the kids what to do? Where to go?
 - a. There were students that got really upset during the drill – they had panic attacks because they thought it was real – we need to be aware of that so they can get the help after the drill.
3. Mentorship
 - a. We have a good concept of pairing a rising 9th grader with a rising 11th grader
 - b. Can we put something together by the end of the school year?
 - i. Maybe get an outline together for start of next year?
 - ii. This is a little late in the year to get started
 - c. Identify rising juniors that would be good mentors then identify
 - i. They will send an email to the faculty looking for suggestions
 - d. Will need to identify rising freshmen that need mentors
 - i. Look at using freshman 101 to link the kids up
 - e. Start planning a framework for how this could look
